

Sprint 2 Plan

Product name: Budget Trace

Team name: Coding Conduct

Sprint completion date: Monday, July 17th 2017

Revision number : 1, Saturday, July 8th 2017

GOAL:

During this sprint we want to input data but not manipulate it.

TASK LISTING:

- As a user, I want to be able to input my spending data onto a table
 - Create table in sql(2)
 - Link it to the website(3)
- As a user, I want to be able to split my input data into groups
 - Create a column in the sql table to account for type of item(2)
 - Searching algorithm to link similar transaction types(5)
- As a user, I want to be able to plan out a budget
 - Create a new table that stores values by type(2)
 - Create insert function into this table(2)
 - Print the table(3)
- As a user, I want to be able to see the total amount of money I have spent this period, and the amount that I have left
 - Subtract what we have spent(2)
 - Update amount of money in account(2)
 - Create page that shows amount this information(4)

27 points total

30 hours per sprint 2

TEAM ROLLS:

Matthew Frank	Developers
Mikhail Lychagin	Product Owner
Marian Vladoi	Developer
Nick Pappas	Scrum Master
Hasson Qayum	Developer

INITIAL TASK ASSIGNMENT

Team member 1: user story, initial task

Matthew Frank

Mikhail Lychagin

Marian Vladoi

Nick Pappas

Hasson Qayum

INITIAL BURNUP CHART: A graph giving the initial burnup chart for this sprint and is labeled as such with sprint number and project name and is located in the lab

INITIAL SCRUM CHART:

SCRUM TIMES: List at least the three days and times during the week when your team will meet and conduct Scrum meetings. Also, indicate which of these meetings will have the TA/tutor visit as arranged with the TA/tutor. It is expected the TA/tutor will visit during the Scrum meeting during your lab time

Monday : 12:30-2:00

Wednesday: 12:30-2:00

Whatever day our lab is

Sprint 2 Report

Product name: Budget Trace
Team name: Coding Conduct
Date: July 18, 2017

Actions to stop doing: "What things should we stop doing?"

-

Actions to start doing: "What should we start doing?"

- The team should update the scrum board before scrum meeting
- The team should upload documentation on GitHub

Actions to keep doing: "What is working well that we should continue to do?"

- The team should keep updating the GitHub
- The team should keep texting in the group chat as to keep communication high
- The team should keep having SCRUM meetings to stay up to date
- The team should keep having SCRUM meetings with the TA

Work completed/not completed:
